DESIGNED & ENGINEERED FOR EASE OF OPERATION

The **Packaging Dynamics, Ltd.** Automatic Time-Gravity Straight-Line Filling System Model SLA-TG is constructed of stainless steel that provides for easy clean ups and maximum chemical resistance. Engineered to time-fill liquids into containers as small as 2 oz. or as large as 2.5 gallon containers. Rates range from 12 to 60 containers per minute depending on the container size and product viscosity.

Standard equipment include a product holding tank, pump, 10' stainless steel conveyor and drive system, integrated with photo-optic sensors, automatic In-Gate and Out-Gate cylinders and an easy to understand operator interface that communicates with the PLC.
